

KEVA PREMIUM 50L Electric Vacuum Cleaner

With a fully enclosed stainless steel collection drum, the KEVA Premium 50L is the perfect unit for a wide variety of industry applications including cleaning up potentially explosive dusts in the food industry. A patented mechanical control enables a reliable, reverse pulsation cleaning action on the first stage filtration system which helps the filters retain maximum efficiency and does not require additional auxiliary energy.

KEVA PREMIUM 50L

FEATURES

Supplied with:

- 50 litre collection container on castors
- 10m cable
- Cyclone separator for better pre-separation
- Patented alternating filter cleaning system
- 2m earthing clamp
- Electrically conductive castors and wheels
- Stainless steel roller carriage
- Pressure gauge
- Optional bag
